Isaacs lived five hours after being struck in the head with a board by Hirsch. The case has attracted great interest.

Cobham Social News.

[Special to The Times-Dispatch.]
COBHAM, Va., Oct. 2.—This combination of good roads, fine weather and beautiful scenery has tempted to more than the usual amount of outdoor exercise, chiefly horseback riding and walks, but the dreaded automobiles have found their way along the public roads, often creating havoc among the horses not accustomed to meeting them. Quite a serious accident occurred on Monday when a horse named the home of Mrs. Robert Shackelford and crushed a pet dog belonging to Mrs. Charles Dickinson, who is a guest of Mrs. Shackelford. Miss Mary Shackelford tried to come to the rescue of the little dog, and raised both hands to stop the horse before it reached the animal, but no attention was paid to her efforts and in taking up the suffering dog, after the car had passed over it, she was badly bitten, and was obliged to call in medical assistance. Another car, the day before, passed a buggy on the same road, with a man driving a cart, and took off one of the wheels of the buggy and went on, leaving the man to contend with his cart and broken buggy as best he could. The people of the community will certainly not welcome the automobile until there is a change in the way these matters are conducted.

The Cobham Bridge Club has resumed its regular meeting which are very fully attended. On Wednesday, the club met at the home of Mr. and Mrs. George Houghton, and as is always the case, there was a great success. Among those present were Mrs. Landon River, of "Castle Hill," and her guest, Miss Jessie Martin, of Richmond; Mr. and Mrs. Sholto Douglas, Dr. and Mrs. Morris, the Misses Page and Dr. Mann Page, Mr. and Mrs. Houghton and Mr. Taylor.

The neighborhood regrets that Mrs. Sholto Douglas is leaving soon for a visit of some months to her friends in England. Mr. and Mrs. Allen Potts and their son have returned from a trip to Canada and New York. Mrs. Walter Martin, who has been visiting at "Castle Hill," has returned to Richmond, and Mr. Taylor.

Mrs. Thomas Gordon and her family will leave on Friday for Richmond. The regret at giving them up is somewhat mitigated by the fact that they will return to occupy a cottage of their own in this neighborhood next summer.

WOULD HAVE
BEEN DEAD

Says Temple Clark, of Pope, Had It Not Been for Cardui—Now in Good Health.

Pope, Tenn.—"As the result of a fall from a horse, I suffered intense agony for about four years," writes Mrs. Temple Clark of this place. "I was irregular and had falling feelings and other womanly trouble. At last I was induced to take Cardui, the woman's tonic, and it helped me a great deal. I certainly believe it had not been for Cardui, I would have been dead instead of having the blessing of health."

"I love a dollar, but I have never seen one I think as much of as I do of a bottle of Cardui. I could tell a great deal more and not get tired. I recommend it to all my friends, for I am sure it will cure others as it has me."

Remember that Cardui is a vegetable extract, composed of valuable medicinal ingredients, which build up vitality, tone up the nerves and strengthen the womanly constitution.

For over fifty years Cardui has been in successful use. Its merit is proven and known. Using it is no new experiment. It has stood the greatest of all tests—the test of TIME.

Note.—The Cardui Home Treatment for Women consists of Cardui (41), Theobald's Black Draught (25c), or Veto (50c), for the liver, and Cardui Antiseptic (50c). These remedies may be taken singly by themselves if desired, or three together, as a complete treatment for women's ills. Write to Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for special instructions and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

perience yesterday, and according to stories circulated around, he looks upon himself as a veteran, miraculously snatched from instantaneous death. It seems that the one in question was leisurely watching the digging of a ditch, when he capied something within the interior of the breach. Possessing a prying nature, he leaped within the opening and seized his find; and with chisel in hand, he commenced a determined attack upon the clay-crusted mystery. Suddenly, however, he was seen to suppress his investigation, and with handkerchief clasped to his ear, to tiptoe gingerly away from his base of operations. An old soldier passing at the time observed the curious incident, and with warlike instincts presumed that the retreating figure was hoisting a flag of truce to some enemy.

When the young man recovered his breath he explained the matter. He said, after considerable hacking away, his chisel had penetrated the hard crust and struck something with a metallic sound. He had looked once and only once. He beheld a loaded shell, and with great trepidation he rapidly retreated, every moment expecting a violent explosion. He attributes his escape as providential. The incident in question occurred in the yard of J. B. Rudd, 1217 Bainbridge street. The young man would not disclose his name.

Interest in Baseball.
Much interest is shown here among the sporting lights in regard to the approaching world's series between Detroit and Pittsburgh. Pittsburgh is generally conceded the championship, but some think that the Tigers have a better chance to win than the Red Sox.

Dr. Alderman's Address.
Dr. Alderman closed the meeting in a brief address, in which he pointed out that there was never a time when the college and university were more earnestly studied. Democracy has need of the college. It is a good thing for civilization and the world. When the university was built, there were only about 4,000 students in all the American schools and colleges—only about one of our large universities of today. There was in those days about twenty-five colleges in all the land; there are 5,000 to-day. In France the university and college devote themselves to producing power. In America and England these institutions are seeking to add to prodigality and power an enrichment of life. As a result, the university is made a workshop, a home, a community of homes and a forum. In all this the student has his share. He has impressed himself in his own way upon the life of the nation. He has been called into existence forces necessary to his being. It was he that introduced the fraternity, to provide a home; who initiated self-government; introduced the large concerns of athletic interest; called college papers into existence, and did many other things under the urging of his constructive genius. Dr. Alderman said that he hoped that a further development would call into existence an academic council in operation with the university on terms of dignity and equality.

HUDSON-FULTON CELEBRATION
MOVES TOWARD ALBANY

French and German Officers Are Entertained. Band Concerts on Warships.

NEW YORK, October 3.—The Hudson-Fulton celebration, after a week of pomp and pageantry in New York, has moved up the Hudson, and for another week the cities along the river will vie with each other in doing honor to the memory of Hudson and Fulton. The Half Moon and the Clermont, with the naval escort, now at anchor at Poughkeepsie, will continue their voyage northward, stopping at Kingston, Catskill, Hudson, Albany and Troy, where elaborate local celebrations have been planned.

During the week a military tournament by United States troops will be held at Camp Oliver, on Island Park, near Albany.

Governor Hughes, who attended a sacred concert in Carnegie Hall, New York, to-night, will begin his up-State trip to-morrow. During the forenoon he will review a parade of Yonkers, going on to Poughkeepsie in the afternoon, where a banquet will be given in his honor. On Tuesday the naval squadron, with the Half Moon and Clermont, will move on to Kingston. Catskill will be the scene of Wednesday's celebration. A special trip to the haunts of Rip Van Winkle in the Catskill Mountains, under auspices of the Holland Society, has been arranged for the officers and men of the fleet.

Hudson will receive the flotilla on Thursday. The capital of the State will be reached on Friday. As the naval parade passes up the river on the following day on the way to Troy, it will be saluted by the Watervliet arsenal.

At night a chain of signal fires on mountain tops and other eligible points from Staten Island to the head of navigation will mark the end of the two weeks' celebration. On the following Monday the fleet will proceed to Cohoes.

KIDNEY DISORDERS.

Symptoms and Home Treatment.

Gaut, the celebrated German specialist, asserts that seven-tenths of the feeble-minded and insane are the victims of kidney diseases.

Nervousness, excitability, restlessness, melancholia, pains in the back and neck, neuralgia and rheumatic pains, fevers, chills, scanty urine, highly colored and acid urine, burning pains, fullness and soreness in the region of the bladder—all indicate that the kidneys are affected and weakened, needing tonic treatment.

The very best physician should be consulted at once, or let the following simple, inexpensive, but reliable, prescription be used for several weeks:

Mix one-half ounce fluid extract buchu with one ounce compound fluid balmwort and two ounces compound syrup sassaaparilla. Then take a teaspoonful after each meal and one at retiring, drinking plenty of good, pure water between meals. This mixture makes a splendid tonic and blood purifier.

PRESS NOTES FROM THE THEATRES.

Victor's Venetian Band. With a large audience assured by the advance sale of tickets and a splendid concert to be provided by Victor and his Venetian band, the Radcliffe concert course will open under highly promising auspices at the Academy of Music to-night.

In his way Victor ranks with Sousa and the other musical wizards, and his players, to the last man, are skilled and carefully trained performers. The concert as a whole will be a musical event of some importance, and in addition will furnish another opportunity for the enjoyment of those special features that have won such great popularity in the South, the Saxophone Quartet and the Brass Sextet. The program will include a group of choice selections from classical and popular airs.

"A Fool and His Money." George H. Broadhurst's successful farce, appeals irresistibly in the face of the city metropolis, and with its manners and conventionalities, brings up the memories of travels road or experienced. They never have to be disappointed and it will be played at the Academy to-morrow night.

Charles B. Hanford. An American play, well written and finely acted, is the promise held out by Charles B. Hanford for his engagement at the Academy. Wednesday night and Thursday matinee. Fortunately for the public, Hanford's promises are redeemable at their face value. They never have to be disappointed and "The American Lion" may be relied on to possess not only the charm of splendid acting such as Mr. Hanford always offers, but a plot interest that is not only novel, but strictly in touch with current thought.

On Thursday night Mr. Hanford will be seen in "The Faming of the Shrew."—Adv.
